

Treasure Island – TI Hotel & Casino Earns 4 Green Globes Certification

GREEN GLOBES BENCHMARKS AND DOCUMENTS COMMITMENT TO ENVIRONMENTAL EFFICIENCY PRACTICES

Las Vegas – The Green Building Initiative (GBI) is pleased to announce that Treasure Island – TI Hotel & Casino has earned Four Green Globes® certifications for retrofit building projects to save energy and water, improve the indoor environment for guests and staff, reduce emissions and resource waste, and employ environmental management methods.

"This recognition from GBI is a great honor for Treasure Island," said Don R. Voss, the company's vice president of hotel sales and marketing. "Achieving Green Globes certifications are the result of TI's efforts to build and maintain the most sustainable facilities possible. Operating certified green facilities are a crucial part of our environmental sustainability efforts."

"GBI's goal is to increase the adoption of green building best practices, and we are pleased that Treasure Island chose Green Globes to certify its property," GBI President Vicki Worden said. "The Four Green Globes certification is the highest assessment given by GBI; it documents TI's commitment to environmental efficiency practices."

Green Globes is based on a 1,000-point system covering seven areas of green building best practices. A third-party certified Green Globes Assessor evaluates every building based on practices specific to each building. A Four Green Globes certification is awarded to buildings that have achieved compliance with 85 percent or more of Green Globes criteria.
