Treasure Island to Offer Voluntary COVID-19 Antibody Testing to Employees In Partnership with HealthCare Partners of Nevada

Las Vegas — Treasure Island Las Vegas will begin offering free, on-site COVID-19 antibody testing for current employees in partnership with HealthCare Partners – Intermountain Healthcare.

HealthCare Partners – Intermountain Healthcare will provide a staff of medical professionals to administer the antibody testing to TI’s employees. Testing methods include blood sample or a prick of the finger. Once an antibody test is administered, it takes approximately 20 minutes to process until results are available.

“We’re happy to be able to support Treasure Island and our community with these services as the city prepares to reopen and welcome visitors back to the state,” remarked Dr. Warren Volker, chief clinical officer of HealthCare Partners – Intermountain Healthcare.

In order to ensure employees remain safe, TI has also put forth policies and procedures that include: security temperature screenings; hand washing and hand sanitizing; requirements to stay at home if sick; social distancing; expanded training about COVID-19 and prevention; use of personal protective equipment; and strict cleaning protocols.

A full outline of its policies can be viewed at [treasureisland.com/COVID-19](https://www.treasureisland.com/COVID-19).

About Treasure Island

Treasure Island on the Las Vegas Strip is a privately owned hotel and casino and stands alone as the only major Strip property to claim that unique market position. Boasting nearly 3,000 guest rooms, Treasure Island is a world-class destination for headline entertainment. Home to Mystère, the classic Cirque du Soleil performance combines the powerful athleticism, high-energy acrobatics and inspiring imagery that has become the company’s hallmark. Upscale and casual dining choices, hip nightspots and indulgent spa and shopping experiences further complement the one-of-a-kind Treasure Island guest experience.
