Treasure Island Receives SGS Certification, Upholds Topline Industry Standards for Cleaning and Disinfecting

Las Vegas – Treasure Island has met Radisson Hotel Group Cleaning and Disinfection Safety Protocols, demonstrated by accreditation from SGS, the world’s leading inspection, verification, testing and certification company.

Since reopening in early June following the mandatory state closure of Las Vegas strip hotels and casinos, Treasure Island resort has hosted over 150 small wedding, meeting and leisure groups as well as thousands of individual guests who experienced industry leading health and safety policies.

Don R. Voss, VP Hotel Sales & Marketing of Treasure Island said, “We remain committed to delivering a clean and safe environment with maximum hygiene standards to help protect our guests, team members and partners. We are pleased SGS has certified that we are in full compliance with all the health, safety, and disinfection techniques outlined in the Radisson Hotels Safety Protocol, including a 20-step protocol for the hotel and 10-step protocol specifically defined for meetings and events.”

The Radisson Hotels Safety Protocols are a 20-step program for hotels and 10-step program for meeting and event spaces initiated by the Radisson Hotel Group. Treasure Island officially joined the Radisson Hotel Group system in 2019, enabling guest reservations on RadissonHotels.com and allowing Radisson Rewards members to be able to earn and redeem points when staying at the property.

Enhanced cleaning and disinfection procedures, increased attention to safety in communal spaces, protective equipment, and updated training for team members are included in the comprehensive Radisson Hotels Safety Protocols outlined in detail at
